#### **MEMBER NOTES**

#### New Member,

Welcome to the Berks County PA chapter of the Harley Owners Group (HOG). On behalf of our members, officers, and sponsor, Classic Harley-Davidson, we are happy to include you as an important part of our chapter. Whether you are a new or experienced rider, we look forward to becoming acquainted with you and having you become an active part of our chapter. We promote enthusiasm for safe and fun riding of our Harley-Davidson motorcycles to a multitude of activities and destinations throughout the year.

We encourage you to review the information provided in this book. We hope it's a useful resource of our chapter's safety information, rides, and events. We invite you to be part of all of our activities and ask that you contact any chapter officer or Classic Harley-Davidson staff for additional details.

Ladies are invited to join our Ladies of Harley (LOH), established for women who do or do not ride their own motorcycle. Contact our LOH officer for additional details.

Each of you are invited to join us on one of several New Owner / New Member Rides held throughout the year. This small group ride will allow us to personally get to know you and discuss safe group motorcycle riding. These scheduled rides will be announced at chapter meetings and posted on our Events Calendar. Contact our Assistant Director for additional details.

Thank you for joining Berks County HOG. We look forward to your participation. Enjoy the adventure!

## The Officers of Berks County HOG

Your volunteer staff of HOG Officers were once members like you. When the need arose for a new person to take over from a previous officer, they stepped forward. Perhaps that is something you are considering, too. Please feel free to speak to any officer if you might be interested in lending your help to our Chapter!

# **NEW MEMBER AND NEW OWNERS RIDES**

Experience the thrill of getting to know Berks County HOG and group riding by joining our Assistant Director and several chapter officers on an introductory small group ride specifically for new members and new owners. This opportunity will allow us to personally get to know you and discuss safe group motorcycle riding.

New Member and New Owner Rides also include a classroom overview of the chapters group riding and safety information by the Safety officer prior to the ride.

These ride schedules will be announced at chapter meetings and posted in our Events Calendar and will leave and return to Classic Harley-Davidson. Contact the Assistant Director for more information. First time group riders and guests are always welcome.

### Of our new members

The Chapter Photographer captures wonderful pictures of all new members at one time or another for publication in the Berks County HOG Newsletter, to help us put new names to new faces.

Keep Smiling!

## **BERKS COUNTY HOG SAFE RIDING**

(Continued from page 9)

- 8. <u>Passing</u>. When passing, the Road Captain will signal that the group is going to pass. The Road Captain will pull into the passing lane to pass and the group will follow in riding order. <u>Use signals and do a mirror check and a</u> <u>head check of your blind spot.</u>
- 9. Separated from the group in front of you? <u>RELAX</u>! You will not be left behind. Proceed only when it is safe to do so and at a safe speed. <u>The last rider of the group in front</u> of you will wait for you at the intersection of any point the group turns off the main road.
- 10. <u>IMPORTANT</u>—Anytime the group is separated into two or more groups the last rider of the forward group shall wait at a safe and visible location near the intersection of any point the group turns off the main road. This identifies every location that the group turns from the main road and prevents anyone from being lost and left behind.
- 11. Riding side by side is dangerous, and we prefer the only time motorcycles are side by side is when the group is stopped at an intersection or parked.
- 12. When in a tight curve, the rider on the outside of the curve is required to give room to the rider on the inside in case the curve is to tight to negotiate without excessive crowding.
- 13. If you plan to separate from the group at anytime notify the road captain prior to departing on the ride.
- 14. There are many additional safety concerns when participating in a group ride and too numerous to include. Contact the Safety Officer or Road Captain for additional information.

# **ROAD WARRIORS**

#### Berks County HOG Mileage Recognition Program

EVERY mile counts toward our Million Mile Chapter goal. Even if you don't ride the required number of miles for recognition, please help us reach or goal by participating. Member riders, and up to one passenger, who accumulate a minimum of 10,000 miles in a one year period are recognized. Name, motorcycle VIN #, and odometer miles are required to be registered to participate and can be obtained at any time during the year. Final miles will be recorded at the end of the program, usually in November. To register or obtain rules contact our Assistant Director or any other officer.

# **ADDITIONAL MEMBER INFORMATION**

- 1. All Berks County HOG members are required by HOG to maintain their membership in National HOG. See page 14 for national membership information.
- Chapter events are open to everyone unless noted in the chapter HOG Events Calendar (page 6) as <u>Members</u> <u>Only or Members/Guests Only</u>. According to chapter bylaws, as members you are entitled to bring guests to two events. We hope after experiencing a great time at those events your guest will join the National HOG and Berks County HOG. (Note: The two event rule is not applicable to dependent children of our members).
- 3. Our guests are required to complete and sign a chapter event release form prior to riding on a chapter ride. Please contact the ride's road captain or other officers.
- 4. **GOOGLE Groups** is used by Berks County HOG to communicate informal information amongst subscribed members. See the Berks County HOG Website Home Page to subscribe your email address (page 4).
- 5. Member suggestions and ideas for chapter rides and events are always appreciated. Please contact any Officer or Road Captain to share your thoughts.

# **BERKS COUNTY HOG SAFE RIDING**

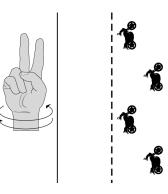

Safety is a personal responsibility. Every rider and passenger is ultimately responsible for their own safety! Know your skills and never ride outside your own comfort or skill level! If it is not safe to pass, go through an intersection, or turn, DON'T DO IT! Poor road conditions or visibility, SLOW **DOWN!** 

- 1. For safety questions and concerns contact our Safety Officer or any of the Road Captains or Officers prior to departure.
- 2. Participate in Safe Rider Skills Programs organized and announced by our Safety Officer.
- 3. Road Captains will identify the lead and sweep riders, provide information on the destination, stops, and the planned route prior to departure. New riders may also wish to identify themselves to the Road Captains.
- 4. Perform a safety check on your motorcycle and have your gas tank filled prior to departure. The Road Captain will make gas stops at appropriate mileage intervals to meet gas and break needs.
- 5. Hand signals will be used for turning, passing, slowing down, and pointing out road hazards. These signals should be passed back through the group. (see page 12 & 13)

(Continued)

# **BERKS COUNTY HOG SAFE RIDING**

- 6. Staggered formation riding is the primary group riding formation. The Road Captain will ride in the front left 1/3 lane, the second motorcycle in the right 1/3 lane at least one second behind the first rider, and so on.
  - a) Always stay inline with the motorcycle in front of you and do not switch between the left and/or right side of the lane.
  - b) Leave enough room between each motorcycle so that any rider can maneuver to the right or left with out hitting anyone else.
  - c) If a rider drops out of the formation DO NOT move forward to fill the open position. DO NOT pass others.

7. Single file riding on narrow roads or when a hand signal is indicated by the rider in front of you. Maintain two seconds behind one another. The lead rider determines on which side of the lane the group will ride.
